Hadoop Common / HADOOP-12428

Fix inconsistency between log-level guards and statements

▼ Details

Type:	↑ Improvement	Status:	RESOLVED
Priority:	≡ Minor	Resolution:	Fixed
Affects Version/s:	None	Fix Version/s:	2.8.0, 3.0.0-alpha1
Component/s:	None		
Labels:	BB2015-05-TBR		
Target Version/s:	2.8.0		
Hadoop Flags:	Reviewed		

▼ Description

Developers use logs to do in-house debugging. These log statements are later demoted to less severe levels and usually are guarded by their matching severity levels. However, we do see inconsistencies in trunk. A log statement like

```
if (LOG.isDebugEnabled()) {
    LOG.info("Assigned container ( " + allocated + ") "
```

doesn't make much sense because the log message is actually only printed out in DEBUG-level. We do see previous issues tried to correct this inconsistency. I am proposing a comprehensive correction over trunk.

Doug Cutting pointed it out in [HADOOP-312](#): <https://issues.apache.org/jira/browse/HADOOP-312?focusedCommentId=12429498&page=com.atlassian.jira.plugin.system.issuetabpanels:comment-tabpanel#comment-12429498>
[HDFS-1611](#) also corrected this inconsistency.

This could have been avoided by switching from log4j to slf4j's {} format like [CASSANDRA-625](#) (2010/3) and [ZOOKEEPER-850](#) (2012/1), which gives cleaner code and slightly higher performance.

Proposed patch against trunk.
- ▼ Hadoop QA added a comment - 03/Oct/13 07:01
-1 overall. Here are the results of testing the latest attachment
<http://issues.apache.org/jira/secure/attachment/12605179/HADOOP-9995.patch>
against trunk revision .

+1 @author. The patch does not contain any @author tags.

-1 tests included. The patch doesn't appear to include any new or modified tests.
Please justify why no new tests are needed for this patch.
Also please list what manual steps were performed to verify this patch.

+1 javac. The applied patch does not increase the total number of javac compiler warnings.

+1 javadoc. The javadoc tool did not generate any warning messages.

+1 eclipse:eclipse. The patch built with eclipse:eclipse.

+1 findbugs. The patch does not introduce any new Findbugs (version 1.3.9) warnings.

+1 release audit. The applied patch does not increase the total number of release audit warnings.

-1 core tests. The patch failed these unit tests in hadoop-common-project/hadoop-common hadoop-hdfs-project/hadoop-hdfs hadoop-mapreduce-project/hadoop-mapreduce-client/hadoop-mapreduce-client-app hadoop-tools/hadoop-distcp hadoop-tools/hadoop-gridmix hadoop-yarn-project/hadoop-yarn/hadoop-yarn-client hadoop-yarn-project/hadoop-yarn/hadoop-yarn-common hadoop-yarn-project/hadoop-yarn/hadoop-yarn-server/hadoop-yarn-server-resourcemanager:

org.apache.hadoop.tools.mapred.TestCopyMapper

+1 contrib tests. The patch passed contrib unit tests.

Test results: <https://builds.apache.org/job/PreCommit-HADOOP-Build/3159//testReport/>
Console output: <https://builds.apache.org/job/PreCommit-HADOOP-Build/3159//console>

This message is automatically generated.

Changes are related to Log level hence tests are not required

▼  Tsuyoshi Ozawa added a comment - 08/Sep/15 11:51

+1, checking this in.

▼  Tsuyoshi Ozawa added a comment - 08/Sep/15 11:57

jagadesh.kiran Before checking this in, I've checked initial patch by Jackie. We should fix the inconsistency of log levels here in other files also.

1. RMContainerRequestor

```
if (LOG.isDebugEnabled()) {
    LOG.info("AFTER decResourceRequest: " + " applicationId="
        + applicationId.getId() + " priority=" + priority.getPriority()
        + " resourceName=" + resourceName + " numContainers="
        + remoteRequest.getNumContainers() + " #asks=" + ask.size());
}
```

2. LeafQueue

```
if (LOG.isDebugEnabled()) {
    LOG.info(getQueueName() +
        " user=" + userName +
        " used=" + queueUsage.getUsed() + " numContainers=" + numContainers +
        " headroom = " + application.getHeadroom() +
        " user-resources=" + user.getUsed()
    );
}
```

3. ContainerTokenSelector

```
for (Token<? extends TokenIdentifier> token : tokens) {
    if (LOG.isDebugEnabled()) {
        LOG.info("Looking for service: " + service + ". Current token is "
            + token);
    }
    if (ContainerTokenIdentifier.KIND.equals(token.getKind()) &&
        service.equals(token.getService())) {
        return (Token<ContainerTokenIdentifier>) token;
    }
}
```

and so on. Could you check his patch(<https://issues.apache.org/jira/secure/attachment/12605179/HADOOP-9995.patch>) and update them also?

▼  Jagadeesh Kiran N added a comment - 08/Sep/15 15:07

thanks [ozawa](#) for your review, I have updated the patch, Please review , no change required for ProtobufRpcEngine.java file .

▼  Tsuyoshi Ozawa added a comment - 09/Sep/15 06:57

jagadesh.kiran thank you for updating. In BootstrapStandby, the message should be used instead of passing Exception object directly since it helps users to understand what's happened.

```
@@ -374,9 +374,7 @@ private boolean checkLogsAvailableForRead(FSImage image, long imageTxId,
    "or call saveNamespace on the active node.\n" +
    "Error: " + e.getLocalizedMessage();
    if (LOG.isDebugEnabled()) {
```

```
- LOG.fatal(msg, e);
- } else {
- LOG.fatal(msg);
+ LOG.debug("", e);
}
```

Also, the log looks fatal one: we shouldn't remove it. Could you update it as follows?:

```
if (LOG.isDebugEnabled()) {
  LOG.log(msg, e); // this line should be fixed as LOG.debug
} else {
  LOG.fatal(msg); // this line and else statement should remain here.
}
```

Jagadesh Kiran N added a comment - 09/Sep/15 07:04

Attaching the patch.Addressed white spaces and check style.Findbugs need to check as no issue displayed. Test failures are not part of patch updation.

Tsuyoshi Ozawa added a comment - 09/Sep/15 07:25

jagadesh.kiran Could you double check that the patch you uploaded is correct? It seems old one.

```

✖

-1 overall

Vote	Subsystem	Runtime	Comment
0	pre-patch	23m 52s	Pre-patch trunk compilation is healthy.
+1	@author	0m 0s	The patch does not contain any @author tags.
-1	tests included	0m 0s	The patch doesn't appear to include any new or modified tests. Please justify why no new tests are needed for this patch. Also please list what manual steps were performed to verify this patch.
+1	javac	8m 13s	There were no new javac warning messages.
+1	javadoc	10m 21s	There were no new javadoc warning messages.
+1	release audit	0m 24s	The applied patch does not increase the total number of release audit warnings.

+1	checkstyle	5m 0s	There were no new checkstyle issues.
+1	whitespace	0m 1s	The patch has no lines that end in whitespace.
+1	install	1m 36s	mvn install still works.
+1	eclipse:eclipse	0m 35s	The patch built with eclipse:eclipse.
+1	findbugs	9m 18s	The patch does not introduce any new Findbugs (version 3.0.0) warnings.
+1	native	3m 20s	Pre-build of native portion
+1	mapreduce tests	9m 8s	Tests passed in hadoop-mapreduce-client-app.
+1	tools/hadoop tests	6m 45s	Tests passed in hadoop-distcp.
+1	tools/hadoop tests	14m 53s	Tests passed in hadoop-gridmix.
+1	yarn tests	6m 59s	Tests passed in hadoop-yarn-client.
+1	yarn tests	2m 3s	Tests passed in hadoop-yarn-common.
+1	yarn tests	59m 21s	Tests passed in hadoop-yarn-server-resourcemanager.
-1	hdfs tests	105m 12s	Tests failed in hadoop-hdfs.
		267m 6s
