YARN-9592 Use Logger format in ContainersMonitorImpl RESOLVED

Activity

[Yeliang Cang](#) added a comment - 18/Aug/17 13:54 - edited

In WindowsSecureContainerExecutor.java,

```
@Override
protected OutputStream createOutputStreamWithMode(Path f, boolean append,
    FsPermission permission) throws IOException {
    if (LOG.isDebugEnabled()) {
        LOG.debug(String.format("EFS:createOutputStreamWithMode: %s %b %s", f,
            append, permission));
    }
    boolean success = false;
    OutputStream os = Native.Elevated.create(f, append);
    try {
        setPermission(f, permission);
        success = true;
        return os;
    } finally {
        if (!success) {
            IOUtils.cleanup(LOG, os);
        }
    }
}
```

LOG in "IOUtils.cleanup(LOG, os);" is defined in org.apache.hadoop.fs.FileSystem in hadoop-common module, which can be called by other modules. So I leave it unchanged.[ajisakaa](#), [vincent he](#), what is your opinion? Would you help me reviewing the patch?

▼ Akira Ajsaka added a comment - 21/Aug/17 04:19

LOG in "IOUtils.cleanup(LOG, os);" is defined in org.apache.hadoop.fs.FileSystem in hadoop-common module, which can be called by other modules. So I leave it unchanged.

Okay.

Would you undo the change in WindowsSecureContainerExecutor.java in the patch? It looks no-op. I'm +1 if that is addressed.

▼ Yeliang Cang added a comment - 21/Aug/17 04:59

Thanks [ajisakaa](#) for the review! Submit patch004 to undo changes in WindowsSecureContainerExecutor.java!
