

Use deployed webapp folder to launch new YARN UI

Details

Type:	Sub-task	Status:	RESOLVED
Priority:	Major	Resolution:	Fixed
Affects Version/s:	None	Fix Version/s:	2.9.0, 3.0.0-alpha4
Component/s:	yarn-ui-v2		
Labels:	None		
Hadoop Flags:	Reviewed		

Description

Currently new ui war file is placed in share/hadoop/yarn folder. Along with this, its better to have ui2 folder placed under share/hadoop/yarn/webapps so that UI could be launched from a defined folder.

This will also help to make some cutom config related to ui as well.

sunilg, patch looks good overall,
some comments about the loggings, it was easier to just edit it directly, so just uploaded the patch with the log changes. please check

Thanks [jianhe](#).

Test case failures are not related. [jianhe](#) changes are fine. Please help to commit if its fine.

▼  Hudson added a comment - 20/May/17 03:36
