HadoopExecutors cleanup to only log at debug

Details

Type:	Sub-task	Status:	RESOLVED
Priority:	Minor	Resolution:	Fixed
Affects Version/s:	3.3.0	Fix Version/s:	3.3.0
Component/s:	util		
Labels:	None		

Description

HadoopExecutors cleanup to only log at debug

~~HADOOP-16181~~ means that executor shutdown now logs @ info

this means every single hadoop fs command against s3 has four lines of information which is entirely irrelevant to all users.

```
2019-11-13 17:32:58,654 [shutdown-hook-0] DEBUG s3a.S3AFileSystem (S3AFileSystem.java:close(3126)) - Filesystem s3a://hwdev-steve-ireland-new is closed
2019-11-13 17:32:58,656 [shutdown-hook-0] INFO s3a.S3AFileSystem (HadoopExecutors.java:shutdown(118)) - Gracefully shutting down executor service. Waiting max 30 SECONDS
2019-11-13 17:32:58,656 [shutdown-hook-0] INFO s3a.S3AFileSystem (HadoopExecutors.java:shutdown(129)) - Succesfully shutdown executor service
2019-11-13 17:32:58,656 [shutdown-hook-0] INFO s3a.S3AFileSystem (HadoopExecutors.java:shutdown(118)) - Gracefully shutting down executor service. Waiting max 30 SECONDS
2019-11-13 17:32:58,656 [shutdown-hook-0] INFO s3a.S3AFileSystem (HadoopExecutors.java:shutdown(129)) - Succesfully shutdown executor service
```

We don't need to inflict this on anyone. Proposed: downgrade the logs to info. No need for tests
